March 17, 2017

Dear Pastor,

Joel Desir, Jr. came to America from Haiti without any ability to speak English. He applied himself to learning English through computer programs and always trying to speak to people around him in English. He never made excuses and learned it rather quickly. He was then able to take Bible courses through our college. Once he progressed as far as we could take him, we encouraged him to complete his degree at Berean Baptist College. He started deputation after graduation with the same goal in mind as when he came to the States-return to Haiti. He turned down the opportunity to start Haitian works here in the States because he has always known that God wants him to return to Haiti. I recommend Joel Desir to you as a missionary, preacher and soul winner. Joel is a soul winner and has a clear testimony of salvation. I know he has an excellent work ethic since I oversaw his work program while he was here at GBC. If you have any questions you may contact me at the number below.

Sincerely,

Paul Provost-Asst. Pastor
